Mosman NSW

## enduroflex

Completed Carpark

Before

Laying Down of DuO B&T

- Project Name:** Mosman  
**Location:** New South Wales, Australia  
**Type:** Renovation - Parking Complex  
**Project Size:** 550m<sup>2</sup>
- Issue:** Failure to existing membranes within the carpark causing water leaks internally.
- Solution:** DuO Bridge and Tunnel membrane was installed which created a waterproof barrier. A concrete asphalt top layer was installed.
- Materials:**
- DuO B&T 5 GRAN/F C250
  - DeboPlast 3 T/F C175
  - DuO Primer B&T
  - Bitumen Angle Fillet
- Project Duration:** 2 weeks  
**Completion:** 2019
